

Claims

What is claimed:

- 5 1. A guide comprising:
 - a frame having a viewing portion and releasably attachable to a computer screen;
 - a first rod moveably attached to said frame wherein said first rod crosses said viewing portion;
 - 10 a second rod movably attached to said frame wherein said second rod crosses said view portion and intersects said first rod.
2. A guide according to claim 1, wherein said frame is attached to the computer screen by a mounting component.
- 15 3. A guide according to claim 2, wherein said mounting component includes an adhesive, a hook and latch fastener or a magnet.
4. A guide according to claim 1, wherein said frame has a quadrilateral shape.
5. A guide according to claim 4, wherein said rectangular shape is a rectangle having a pair of long sides and a pair of short sides.
- 20 6. A guide according to claim 5, wherein said first rod is oriented in a direction of said pair of long sides and said second rod is oriented in a direction of said pair of short sides.
7. A guide according to claim 6, wherein an intersection of said first rod and said second rod form a right angle.
8. A guide according to claim 7, wherein said first rod and second rod have high aspect
25 ratios.
9. A guide according to claim 1, wherein said frame is transparent.
10. A guide according to claim 9, wherein said frame is made of acrylic.
11. A guide according to claim 1, further comprising a lip attached to said frame.

12. A guide comprising:

a frame having a viewing portion and attachable to a computer screen
wherein said viewing portion is of a same dimension as the computer screen;
a first rod moveably attached to said frame wherein said first rod crosses
said viewing portion;
a second rod movably attached to said frame wherein said second rod
crosses said view portion and intersects said first rod; and
a mounting component wherein said mounting component is used to attach
said frame to said computer screen.

13. A guide according to claim 12, wherein said mounting component includes an
adhesive, a hook and latch fastener or a magnet.

14. A guide according to claim 12, wherein said frame has a quadrilateral shape.

15. A guide according to claim 14, wherein said rectangular shape is a rectangle having a
pair of long sides and a pair of short sides.

16. A guide according to claim 15, wherein said first rod is oriented in a direction of said
pair of long sides and said second rod is oriented in a direction of said pair of short sides.

17. A guide according to claim 16, wherein an intersection of said first rod and said
second rod form a right angle.

18. A guide according to claim 17, wherein said first rod and second rod have high
aspect ratios.

19. A guide according to claim 12, wherein said frame is transparent.

20. A guide according to claim 19, wherein said frame is made of acrylic.
